Hawaiian Islands Humpback Whale National Marine Sanctuary

I am amazed that there has been no plan here to fore for the Whale Sanctuary here in Hawaii. Please by all means institute one and make sure it includes :

1) Laws to protect reef habitat 2) Laws to guarantee that all nets are identifiable and most importantly hold owners liable 3) During whale season, limit and enforce speed limits within sanctuary to 13 knots with tough penalties that actually hurt the perpetrator financially. 4) Limit all sonar activity during whale season to comply with NOAA noise policies 5) Fund water quality monitoring and strict laws to stop sewage dumping, pesticides and chemical run off from golf courses.

Thank you for your attention to these issues.
